Somerset Councillor Kevin Messenger reported as follows:

- Somerset Council (SC) has approved a balanced budget for 2026/27, transitioning from a financial emergency to a recovery phase. The Government had agreed to pay off 90% of SC's loan for special educational needs and disabilities costs (SEND).
- Octagon Theatre. SC recently approved the £15m plans to revamp and reopen the Octagon Theatre in Yeovil, which would mainly be funded by grants. It is hoped the changes will mean the theatre can host a wider range of productions, with more complicated sets and attract bigger acts/shows.
- Leonardo Helicopters. The UK Ministry of Defence recently awarded Leonardo a £1 billion contract to supply 23 AW149 medium-lift helicopters for the New Medium Helicopter (NMH) program, which was great news, providing job security in the area.
- Flooding. Local MPs Sarah Dyke and Adam Dance have been challenging the Government to do more to prevent flooding in Somerset and the effect floods are having on Somerset's residents, agriculture, state of the roads etc. Sarah Dyke welcomed the Government's Flooding Minister to Somerset for a day of visits to flood-affected communities.
- Highways. The Government had released extra funding for potholes.
- Castle Cary. Pot hole repair on Station Road postponed until April 2026, the road would most likely be closed for two weeks. Funding for the landslip had now been approved for the works to be carried out at the end of summer 2026.

**RESOLVED:** Cllr Roberts reported that the PC had received an estimate in the region of £350 to £400 from SC for the cost of two signs plus four posts (current rates). As SC expect a rate increase when the contractor reviews its rates after 1st April, councillors agreed to the erection of the two signs in principle; their precise location and cost be delegated to the Parish Clerk for approval in consultation with the Chairman and the Lovington PC members up to £500, following a site visit with Andrew Barron, SC Traffic Engineer.

b. To consider request for speed mitigation measures in Lovington.

A MoP was present to represent the Lovington Primary School Parent Teacher Association (PTA) in its request for a speed indicator device (SID) to be installed near the school, particularly in the vicinity of the double bend adjoining The Old Chapel, due to numerous incidents of dangerous driving and speeding vehicles. The PTA also asked whether the PC would request SC to extend the 30 mph speed restriction southwards to the church.

**RESOLVED:** Following a full discussion it was agreed that to remove the risk would be in the best interest for the safety of the children walking to school from the south. Councillors suggested that if the public footpath was used to the side and at the rear of High Barton, either via the existing gate into the school grounds, or one installed further north via an extended pathway to the existing Children's Entrance gate adjoining school the car park, this would provide a safe route for children to walk to school from the south by removing the risk of walking on the highway via the double bend adjoining The Old Chapel. Other safety measures would be discussed with Andrew Barron during his site visit to include possible locations for SIDs and would be on the agenda for discussion at the next meeting. The School would be advised of this discussion and Resolution, it being noted that no comments had been received directly from the School concerning this matter.

c. Request for speed mitigation measures in Lovington. To be on the agenda for the next meeting.
